

## *"Setting the Pace"*

### 2007 Annual Community of Caring Youth Leadership Summit

Students Grades 8-12

June 12-14, 2007

University of Utah

**G**ear up now to attend the 2007 Annual Community of Caring Youth Leadership Summit, "Setting the Pace," on the exciting University of Utah campus! Teams of four students, grades 8-12, and one adult will stay at the Heritage Commons, formerly the 2002 Olympic Village, to enjoy a full university experience. A wealth of strategies and ideas will be offered to empower each student to impact their own schools and communities, as well as the world around them through collaboration with other student leaders. Below are some snapshots of what you can expect by attending:

- Former NFL Minnesota Vikings quarterback, Keith Nord, will lead the students and sponsors in interactive discussions and activities that promote student leadership, team-building, ethics, and engaging the student voice.
- Numerous activities and sessions will be provided to emphasize civic engagement, community outreach, embracing diversity, and building school unity.
- Students will discuss how values relate to everyday school life. They will create honor codes and action plans, as well as take part in a meaningful service learning project.
- Students and supervisors throughout the region will unite to experience incredible team-building activities at Rice Eccles Stadium and other venues.

**Join us this summer! This will be one event that you won't want to miss!**

# "Setting the Pace"

## 2007 Annual Community of Caring Youth Leadership Summit

University of Utah  
Salt Lake City, UT  
June 12-14, 2007
